# Permanent cosmetic make-up for long-term beauty without the hassle!

**Cosmetic Contour** has been helping clients across the UK look younger for over 10 years boosting self-esteem and confidence. All treatments are carried out by Daphne J. Smith, a member of the Society of Permanent Cosmetic Professionals which means you are in safe hands.

Our permanent make-up uses the highest grade pharmaceutical pigments assuring quality and long-lasting colour for up to four years. No need to re-apply make-up which means you will look radiant every day.

- **Perfectly shaped and fuller eyebrows frame your eyes and flatter your face**
- **Adding permanent colour to lips adds definition and fullness – no need for lipstick**
- **Defining eye-liner on upper and lower lashes gives a flawless look and opens up your eyes**
- **The paramedical side can be used for camouflage of scar tissue and reconstruction of areola and eyebrows – comforting for women suffering with Alopecia or about to undergo chemotherapy**

Call **0800 0820 852** for a **FREE** consultation on how Permanent Makeup will give you great results in a natural, beautiful and long lasting way
